Forté® Plus
Deflecting Renal Access Sheaths
The Forté Plus deflecting renal access sheath provides continual access to the calices of the kidney.

Ideal for stone retrieval, the Forté Plus sheath resists kinking in even the most tortuous anatomy.
**Continual Access**
Kink resistant design provides a wide lumen for instrument passage and stone removal

**Less Trauma**
Forté sheath technology protects the ureter and delicate ureteroscopes\(^1,2,3\)

**Easy Insertion**
Hydrophilic coating facilitates advancement of the sheath

**Active Deflection**
Simple mechanism provides up to 180° deflection
