ONE HAND
ONE STEP

Easy Duct Access
Retention cone eliminates problems traditionally associated with laparoscopic cholangiography, such as clipping, balloon purging and potential breakage.

Self-Anchoring
Soft 6F-20F expandable cone and 3F tapered rigid tip atraumatically engages and occludes the cystic duct, eliminating the need for clips or graspers.

One-Handed Activation
Ratcheting handle, with one-handed activation, makes placement fast and easy.
**AeroStat Cholangiography Catheter**
